

VILLAGE OF LUMBY SNOW REMOVAL PROCEDURE

The Village of Lumby would like to advise residents/businesses of our snow removal procedures. There are in excess of 25 kilometres of paved roads within the Village to maintain and several more kilometres of paved alleys and lanes. Snow removal on all priority routes will be started by 5:30 a.m., depending on snowfall rates, and normally all roads will be completed within 8 hours. In the interest of public safety, Village streets are maintained on a priority basis:

Businesses and residents can assist the Village Of Lumby snow removal and sanding operations by cooperating with the following:

1. Remove all unused vehicles, boats, etc. from the streets and alleyways.
2. Park vehicles off the street when snow removal in progress.
3. Refrain from shoveling, plowing or blowing snow from driveways onto the streets. This snow should be shoveled to the left of the driveway (when looking at the house from the street) to reduce the amount of the snow deposited across the driveway when snow removal is in progress.
- 4. The Village does not clear snow windrows from private driveways.**
5. Children should be advised not to play on snow piles in the cul-de-sacs when snow hauling in progress.

The Village Of Lumby Public Works Department thanks all residents of their continued cooperation during the winter season.
